

PermaPro Invisible Protection

PRODUCT DESCRIPTION :

PermaPro Invisible Protection is a colorless non-flammable surface treatment that produces an invisible protective coating on stone, concrete, tile and marble that is water and oil repellent.

PermaPro Invisible Protection can be applied to all types of exterior surfaces, stone, concrete, tile or marble to prevent water penetration and reduce the effects of atmospheric deposits and soil.

HOW TO USE:

PermaPro Invisible Protection can be applied to vertical or horizontal surfaces by brush, roller or sprayer.

Apply to wet surface completely.

Let coating dry and cure at ambient temperature for 24 to 72 hours to obtain maximum protection.

BENEFITS:

- PermaPro Invisible Protection does not change the surface appearance or leave a glossy finish.
 - PermaPro Invisible Protection can be used inside or outside.
 - PermaPro Invisible Protection is a breathable barrier seal. Water does not penetrate the barrier but moisture vapor does. Therefore, moisture trapped behind a layer can exit and not cause cracking, spalling or freeze/thaw damage.
 - The sealed water repellent surface resists staining and atmospheric contamination.
-

PROPERTIES and STORAGE :

Type : Water based shield.

Color : Colorless

Odor : Odorless

Flammability : Nonflammable

Storage : One year in its packing of origin to the shelter of freezing.

Packaging : 5 Liters

Coverage : 1 L = 8/10 m²

WARNING :

Irritating to eyes. Gloves and protective clothing are always recommended for maximum protection.
