

PermaPro Liquid Release

PRESENTATION :

PermaPro Liquid Release is highly purified aliphatic liquid release agent with high flash point and slower evaporation to allow for more open time, less labor and much safer handling in interior areas.
PermaPro Liquid Release is used to provide a clean release for all stamping operations and is also excellent as a release agent on concrete forms.

HOW TO USE :

Apply PermaPro Liquid Release with a pump up type sprayer.

1. Spray the tools. Usually one coat is sufficient.
2. Spray the surface to be stamped. Only cover an area that can be stamped in approximately 20 minutes.

BENEFITS :

- Slow evaporation rate
- Transparent : The clear colorless release will not stain concrete or forms.
- Totally volatile. PermaPro Liquid Release is 100 % volatile. Nothing is left behind to stain or affect the surface of the finished concrete. Forms dry clean and ready to use again.

PROPERTIES and STORAGE :

Type: Solvent release agent.
Color: Colorless
Odor: Odorless
Flammability: Combustible
Composition: Highly Hydro-refined aliphatic solvent release agents
Packaging : 25 liters
Coverage : 1 liter = 10 m²

WARNING :

Avoid prolonged or repeated skin contact. Gloves and protective clothing are always recommended for maximum protection.
Flammable : Do not use, pour or store near open flames, sparks or equipment that may create sparks.
